

DREAME

Dreame Z1 Pro

Enjoy a sparkling pool with less effort

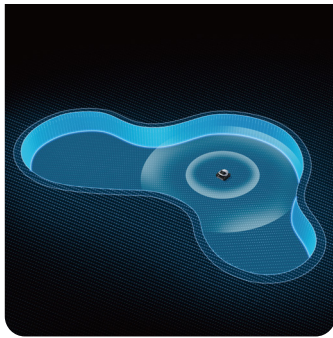

Dreame Z1 Pro

Enjoy a sparkling pool with less effort

Cordless, automated, tangle-free—enjoy ultimate pool perfection with Z1 Pro. With 30m³/h powerful suction and dual brushes, it excels on pool floors, walls, and waterlines. Advanced PoolSense™ technology intelligently recognizes your pool's shape, enabling optimized zoning and S-shaped cleaning routes for exceptional efficiency. Thanks to LiFi optical communication, you can easily issue cleaning tasks and control its movements. Choose from 4 modes—Standard, Wall, Floor, and Waterline—to meet all your cleaning needs. When the job is done, Z1 Pro automatically parks at the poolside for easy retrieval, making pool care effortless.

Key Selling Points

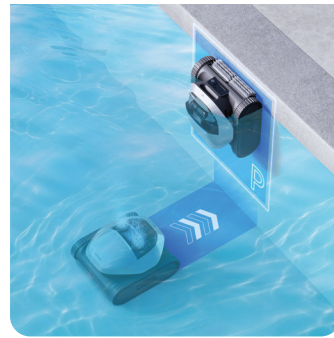

PoolSense™ Technology Optimized Solutions for Various Pool Styles

With PoolSense™ technology, Z1 Pro automatically recognizes different pool shapes and adjusts its cleaning strategies and routes for optimal results. Its advanced zoning algorithms and S-shaped routes are especially ideal for complex, hybrid pools.

30m³/h* Powerful Suction

With powerful 30m³/h suction, it easily clears leaves, dirt, algae, and debris, creating a cleaner and more enjoyable swimming environment all year long.

Auto Poolside Parking for Easier Retrieval

Once cleaning is complete, Z1 Pro automatically docks by the poolside—no extra tools required. Through the Dreamehome App, you can customize docking spots and receive instant reminders of docking, saving you unnecessary trips to the pool.

Hands-On Control Manage and Navigate with Ease

Z1 Pro comes with a handheld remote that uses LiFi technology for underwater connection, whether in freshwater or saltwater pools. This advanced feature allows you to easily assign tasks, steer the cleaner, and retrieve it whenever needed.
